

Hunting beasts

**HORROR
VALLEY**

horrorvalley.com

Justin was walking alone on an old road by night. The night was peaceful, and the moon was shining so that the road could be seen partially. The road was in the middle of a wood. Suddenly, he heard some wolves roaring nearby! He immediately got terrified and didn't know what to do. Then, he heard some noise in a bush nearby that sounded like a human. Then out of nowhere, a man came out. It was a local hunter. The hunter started conversation: "Hello. My name is Timothy. I am a hunter and I am hunting down those beasts. Those wolves are aggressive and they killed one man last year. I will shoot them and therefore, you should run in this direction. If you listen to me, you will find the village, you can't miss it. 10 minutes of walking in this direction. There is a yellow house, and there lives my brother Andrew. Knock the door and tell him that I sent you to stay there until the morning. Give him my wallet as proof that I sent you!"

Justin was running quickly and heard a few shots behind him. Then he continued running, and indeed after some time, he found the village and the yellow house of hunter's brother. He knocked at the door. Then the man opened the door and they met each other. When Andrew asked him why he came there at such late hours, Justin told him: "You see, I was walking towards a bus station and the closest way to it was a dusty road near the woods. Suddenly out of nowhere, I heard many wolves roaring near me. Then, one hunter, Timothy approached me with a rifle and told me that it was not safe there and that I should find you and give you his wallet as proof, and that I should stay here until the next morning!" Andrew was pale and shocked when he saw the wallet. He replied: "I don't know how you got this wallet as this was indeed my brother's wallet, but this is impossible!" Then Andrew showed him some data which proved that exactly a year ago, Timothy left with the rifle and a hunter's suit to hunt down wolves. The next day, they found him in the wood, cut in pieces! He was killed by wolves!
